

## **TBIF/KIST becomes the first member from Rwanda to join the Shanghai International Technology Transfer Network (SITTNet) to assist Rwandan Entrepreneurs**

KIST through Technology and Business Incubation Facility (TBIF) becomes the first member of Shanghai International Technology Transfer Network (SITTNet), China. SITTNet is initiated and organized by the National Technology Transfer Centre of Shanghai Jiao Tong University, Shanghai Technology Innovation Centre, Shanghai Co-way International Technology Transfer Centre Co. Ltd, Shanghai Small Enterprises Service Centre and the Technology Transfer Centre of Shanghai Academy of Science and Technology, with the Secretariat located in Shanghai Co-way ITT centre.

SITTNet aims at integrating resources of companies dealing with international technology transfer, strengthening the link of University, institution and enterprises, promoting the effective flow of Science & technology information and resources, accelerating the business co-operation and high tech product trade between Rwanda and China.

Shanghai International Technology Transfer platform ([www.sittnet.cn](http://www.sittnet.cn)) is one important part of SITTNet, which is an open

information platform providing international technology transfer supply and demand.

By joining the above network, KIST can assist Rwandan Entrepreneurs to expand their business contacts with organizations/enterprises in China, to get in touch with Chinese SITNet members and other local Technology transfer providers in China; Also SITNet can arrange business trips and exhibitions for Rwandan Entrepreneurs etc in china, SITNet can also disseminate Rwanda entrepreneurs business information on [www.sitnet.cn](http://www.sitnet.cn) for information and directly to local relevant organizations. For more information, please visit [www.tbifrwanda.com](http://www.tbifrwanda.com) or [www.kist.ac.rw](http://www.kist.ac.rw)
